

# EPEAT Program

## Continuous Monitoring Round Plan

Imaging Equipment  
IE-2022-03  
March 14, 2022

### Background

EPEAT® is a comprehensive voluntary sustainability Type 1 ecolabel that helps purchasers identify sustainable technology products and services. Central to EPEAT are conformity assurance activities that meet the technical rigor and credibility needs of the institutional purchasers who rely upon EPEAT. The EPEAT Program ensures the ongoing conformance of EPEAT-registered products through an ongoing surveillance process known as Continuous Monitoring. Continuous Monitoring activities occur throughout the year and test the ability of Participating Manufacturers to prove conformance with EPEAT Criteria on an ongoing basis.

Some Continuous Monitoring activities require that Investigations be conducted in discrete timeframes called Rounds. The EPEAT Program develops an individual plan for each Continuous Monitoring Round, which specifies the EPEAT Criteria to be investigated, the method of investigation that GEC-approved Conformity Assurance Bodies (CABs) must use and the specific dates when the Investigation activities must be completed. The EPEAT Program also selects the Participating Manufacturers and EPEAT-registered products and assigns Investigations to CABs, which must fully participate in and are responsible for implementing Continuous Monitoring Round activities with their Participating Manufacturer clients. Participating Manufacturers are required to cooperate fully with their GEC-approved CAB during Round activities.

This document contains the individual plan for Continuous Monitoring Round IE-2022-03.

### Continuous Monitoring Round IE-2022-03 Investigation Activities

Continuous Monitoring Round IE-2022-03 will use documentation review to determine the conformance of products with specific EPEAT Criteria. The EPEAT Program assigns specific products and EPEAT Criteria for evaluation to GEC-approved CABs. Participating Manufacturers have a discrete time period in which they must provide evidence that supports conformance with the selected criteria. GEC-approved CABs review the documentation, make recommendations on conformity based solely on the evidence provided by Participating Manufacturers, and send Investigation Reports to the EPEAT Program, which makes the final decisions on conformity.

### Continuous Monitoring Round IE-2022-03 Criteria and Product Selection

Both the products and Criteria for investigation in Continuous Monitoring Round IE-2022-03 were selected randomly using a random number generator. Each Participating Manufacturer was assigned two investigations, and any manufacturers who received a major nonconformance in a 2021 Continuous Monitoring Round were assigned one additional investigation.

Overview of Criteria and Products Selected	
Product Category	Imaging Equipment
Number of Products Selected	42
Criteria Selected	<p>4.1.2.1— Further reduction of the use of European Union RoHS Directive hazardous substances (cadmium)</p> <p>4.1.3.2— Use of non-mercury containing light sources</p> <p>4.1.4.1— Reduction of substances on the European Union REACH Candidate List of SVHCs</p> <p>4.1.6.1— Reducing BFR/CFR/PVC content of external plastic casings</p> <p>4.1.7.1— Reduce fluorinated gas emissions resulting from flat panel display manufacturing</p> <p>4.2.1.2— Declaration of postconsumer recycled plastic</p> <p>4.2.1.3— Minimum 5% to 10% content of postconsumer recycled plastic</p> <p>4.2.2.1— Declaration of renewable/biobased plastic materials content</p> <p>4.2.3.1— Declaration of product weight</p> <p>4.3.1.1— Ease of disassembly of product</p> <p>4.3.2.1— Use of single recyclable plastic type per plastic part</p> <p>4.3.2.2— Restriction on materials not compatible with reuse and recycling</p> <p>4.3.2.3— Manual separation and marking of plastics</p> <p>4.3.3.1— Notification regarding the identification of both materials and components that have hazardous characteristics or special handling needs</p> <p>4.3.4.2— Minimum reusable/recyclable rate-based requirements of European WEEE Directive</p> <p>4.4.2.1— Product Upgradeability</p> <p>4.4.3.1— Spare Parts</p> <p>4.5.2.1— Product specific greenhouse gas emissions - life cycle assessment</p> <p>4.5.3.1— Standby power level <math>\leq 1</math> W and disclosure</p> <p>4.5.3.2— Auto standby capability</p> <p>4.6.1.2— Provision of product take-back service for broader scope of products</p> <p>4.6.2.1— End of life processing requirements</p> <p>4.7.2.1— Public disclosure of key environmental aspects</p> <p>4.7.3.1— Product life cycle assessment and public disclosure of analyses</p> <p>4.8.1.2— Elimination of elemental chlorine as a bleaching agent in packaging material</p> <p>4.8.2.1— Separable packaging materials</p> <p>4.8.2.2— Packaging 90% compostable/recyclable</p> <p>4.8.2.3— Plastics marked in packaging materials</p> <p>4.8.3.1— Recovered content in select fiber-based packaging materials</p> <p>4.8.4.1— Provision of take-back service for packaging</p> <p>4.9.2.1— Documentation that product does not prevent the use of Non-Manufacturer Cartridges and Non-Manufacturer Containers</p> <p>4.9.3.3— Manufacturer recycles or reuses plastic material collected through its cartridge and container take-back program</p>

## Continuous Monitoring Round IE-2022-03 Schedule

Phase of Round	Date
<b>Preparation Phase</b>	
CABs notified of Round schedule and activities by EPEAT	March 7, 2022
CABs receive Round assignments and materials from EPEAT	March 14, 2022
Week of Round Training for CABs	Week of March 28
<b>Investigation Phase (CABs performing investigations)</b>	
Investigative period begins	April 4, 2022
Investigative period ends	June 3, 2022
Deadline for CAB submission of Investigation Reports to EPEAT	June 17, 2022
<b>Deliberation Phase (EPEAT making conformity decisions)</b>	
Deliberation period begins	June 18, 2022
CABs receive Investigation Reports with final conformity decisions from EPEAT	August 2, 2022
<b>Corrective Action Phase (Participating Manufacturers restoring accuracy of EPEAT Registry)</b>	
Corrective action period begins	August 9, 2022
Corrective action period ends	September 8, 2022
Deadline for CAB submission of corrective action reports to EPEAT	September 22, 2022
CABs receive final Investigation Reports with correction decisions from EPEAT	October 6, 2022
<b>Reporting Phase</b>	
Outcomes Report published	October 20, 2022

### Process Details – Continuous Monitoring Using Documentation Review

Continuous Monitoring Rounds that use documentation review activities are conducted in accordance with EPEAT Policy Manual (P65) and EPEAT Conformity Assurance Implementation Manual (also called EPEAT Requirements of CABs and Conformity Assurance Procedures) (P66) in effect at the time of the Round.

- The EPEAT Program downloads a list of all active EPEAT-registered products, select products from the list for investigation and assigns EPEAT Criteria to products, as per the Round Plan.
- GEC-approved CABs receive the list of products and EPEAT Criteria selected for their Participating Manufacturer clients but do not yet notify the Participating Manufacturers of the imminent investigations.
- The EPEAT Program publishes the Round Plan on the start date of the Round.
- On the start date of the Round, GEC-approved CABs notify the Participating Manufacturers that their products have been selected for investigation and begin the evidence collection process.
- Participating Manufacturers have a discrete time period in which they must provide evidence that supports conformance with the selected criteria.

- GEC-approved CABs review the documentation, make recommendations on conformity based solely on the evidence provided by Participating Manufacturers, and prepare an Investigation Report for each product.
- GEC-approved CABs submit the Investigation Reports to the EPEAT Program. At the same time, CABs forward these same Reports to the Participating Manufacturers.
- The EPEAT Program reviews Investigation Reports and makes the final decisions on conformity. The EPEAT Program then sends the Investigation Reports back to the GEC-approved CABs.
- GEC-approved CABs send the Investigation Reports with the final decision on conformity to the Participating Manufacturers.
- For decisions of nonconformance, Participating Manufacturers must make corrections within 30 calendar days to restore the accuracy of the EPEAT Registry.
- The EPEAT Program publishes an Outcomes Report identifying the nonconforming products and Participating Manufacturers, as well as the actions taken to restore accuracy of the EPEAT Registry.
